PURPOSE: To record as a permanent top serial in each original file of all COINTELPRO material, located in the Freedom of Information/Privacy Acts (FOIPA) Reading Room. This serial is to ensure the original document has been compared with the Reading Room copy and that markings on both documents are consistent.

RECOMMENDATION: That each disclosure analyst in FOIPA, Document Classification Appeals and Affidavits Unit (DCAAU) and Legal Counsel Division (LCD), be made aware of this memorandum and follow the established procedures.

In order to ensure that COINTELPRO material processed under FOIPA, Litigation or any other purpose, is consistent with material previously released and currently located in the FBI FOIPA Reading Room, this memorandum is being placed as a Top Serial, not to be serialized, in each of those original COINTELPRO files. Analysts processing material from this file are placed on notice that the Reading Room copy must also be reviewed to insure that both are marked in a consistent manner. When such a review is complete a notation must be made on the original that it has been compared to the Reading Room copy.

Enclosed for the Bureau is a proposed flyer captioned "Temporary Committee for the Protection of Serbian Nationalism, Newark, New Jersey". It is proposed that this flyer be translated into the Serbian language, mimeographed, and sent to Serbian leaders throughout the United States and Canada. A compilation of persons to whom it would be sent will be furnished if the Bureau concurs with this recommendation. In connection with this recommendation, the following is proposed:

1. It is felt Newark, New Jersey, or some location outside of the Chicago area be the mailing point in order to remove the Chicago area from suspicion.

2. It is felt that this flyer is apropos at this time because of the apparent tide of feeling against MIOMIR RADOVANOVIC, DRAGISA KASIKOVIC, and the other co-conspirators in the bombing of the Yugoslav Establishments which occurred in January, 1967. It also shows the need for adherence to the laws of the United States.

3. It is suggested the proposed document be reproduced and approximately 500 copies be mailed to various Serbian leaders in the United States and Canada, including many of those known to be associated with the bombings. The mailing cost alone would be approximately \$30 to \$40, depending upon the number of copies mailed to Canada and possibly mailed to leaders in France and other countries such as Italy and Germany. At this point, including the cost of postage and materials such as envelopes and paper, it is felt this would not exceed \$100.00.

4. The goal of this would be to create a feeling of distrust in the people who have frequently capitalized on the bombings to build their reputations within the Serbian communities, ignoring the rightful respect of the laws of the United States, thus creating the feeling that this type of action is desirable. If a logical plea, mixing logic with the flowery style of the Serbian press is used, it could well result in the

persuasion of many persons who might be on the line or might be in sympathy with the bombers in respect to the laws of the United States. (S)

It is not proposed that a return address be used inasmuch as it could possibly lead to a far greater administrative problem than the situation warrants at this point. A proposal such as this would not have as an objective the penetration of any group insofar as projected goals now would prescribe. This would leave a great deal of mobility in the future should this avenue be desired in some project which would be felt apropos at that time. (u)

Bureau approval of the proposed text and Bureau approval of a tentative expenditure of \$100 is requested. If approved, a compilation of names of persons to whom this proposal would be sent, will be submitted to the Bureau for approval. Also, it is requested the Bureau approve a translation to be made by the Bureau's Translation Section, in order that proper native nuances may be provided in the translation and thus make it more believable. TEMPORARY COMMITTEE FOR THE
PROTECTION OF SERBIAN NATIONALISM
NEWARK, NEW JERSEY

The purpose of this organization is to preserve the nationalistic love of freedom in the Serbian communities in the United States and Canada. This must also include the love of the fatherland and of this free country where we now live, the United States.

During the past five years or so, several people have banded together to commit certain acts which are not in the interest of the freedom loving traditions of our beloved Serbia. Members of this group have abandoned all reason and have shown themselves to be common, ordinary criminals. In 1963, this group was responsible for the throwing of a bomb in the United States. This took place at the Consulate of the Criminal TITO in Chicago where a so-called "Molotov Cocktail" was thrown into the consulate. We do not agree with the criminal Yugoslav Communist Government but do not feel this is the proper way to carry out our fight against the communist criminals. We must carry out our fight within the law of this country which has accepted us after we were unable to return to Yugoslavia. Later, this same small group was responsible for the attack on the Yugoslav Consul Vukovic in Chicago. Again, we do not condemn this anti-communist desire of this group, but they become criminals when they presume the laws of the United States do not apply to them for committing these acts.

Finally, in 1967, on the day of our blessed St. Sava, this small group, with a cadre of dupes, committed the act which finally brought the Federal police into the picture. They bombed the Yugoslav establishments in the United States and Canada and brought disrespect and shame on the name of all freedom loving Serbs. After an enormous investigation, the Federal police and the United States courts brought one of the members of this group, Dragisa Kasikovic, to the Federal Court in Washington, D. C., where he admitted he was involved in the bombings. He then tried to emulate our great Gavrilo Princip by trying to become a martyr. He was accepted by certain Chetniks and became an editor in Chicago, an editor of a Chetnik newspaper. One of his friends in this act, a man whose background is very doubtful, became the editor of the newspaper "Sloboda", which is the newspaper of the Serbian National Defense Council. This man, of course, is Miomir Radovanovic. This is a man who left his wife and children in New Jersey. This is the man that no one knows about during the war in Yugoslavia. This

is the man who is said to have tried to commit suicide in New York. No, Serbian Brothers and Sisters, this man is no leader. He is no Gravilo Princip. He is a Hofstopler (con-man). He is making his living sucking the blood of the great spirit of Draza.

This group must be driven from the leadership of the great Serbian people. They can stay with the groups and can learn from those of us who have lived through the horrors of the Fascist killer Hitler and his criminal agents, the Ustasha. They can learn from those of us who have given our blood for the spirit of Draza in the concentration camps of these killers. They can learn from those of us who have suffered at the hands of the criminal killers, the bloody communists who still rule our great Serbia. They can learn -- but they have not shown they can lead. Until they show this, they are not worthy to be called Serbian Nationalists. Every great leader must learn before he can lead.

Serbs--Remember the name of Draza.

DECLASSIFIED BY SP-2 BLM/JRG
ON 10/24/00

This memorandum is to recommend mailing of flyers from the national organization "Temporary Committee for the Protection of Serbian Nationalism, Newark, New Jersey," to Serbian leaders throughout the U. S. and Canada. (S)(U)

Chicago believes that at the present time there is an apparent tide of feeling against Miomir Radovanovic, Dragisa Kasikovic and other co-conspirators in the bombing of Yugoslav establishments, 1/67. (S)(U)

Text of the flyer styled for Serbian nationalism appeal is designed to discredit those who capitalize on bombings to build their reputations in the Serbian communities; encourage Serbs to respect and adhere to the laws of the U. S.; and discourage future bombings of Yugoslav establishments. Chicago proposal has definite merit. Cost of purchase of material and postage of mailing of approximately 500 flyers is estimated not to exceed \$100. (S)(U)

ACTION:

If you approve, attached letter will be sent Chicago, authorizing initiation of this operation including Chicago expenditure of up to \$100 for postage and materials. Translation is being arranged separately with Laboratory and reproduction of flyer is being arranged with Exhibits Section of Administrative Division. (U)

(C) Both DRAGISA KASIKOVIC and MIOMIR RADOVANOVIC have become much more important in the eyes of the Serbian emigre organizations than they were prior to the bombings. This is not only the case in Chicago but is probably true throughout the country. Certainly, as the overall emigre political scene is viewed, it is obvious the conspirators have received a disproportionate share of publicity. They are considered to be martyrs in many quarters. Chicago has been attempting since DIPBOM to remain cognizant of the activities of the bombers and their friends. In this regard, interviews of DIPBOM suspects were carried out in Chicago until the present time and will continue.

ReBulet 2/5/69^{per 1}

The referenced letter authorized the mailing of flyers critical of individuals involved in the 1967 bombings of Yugoslav establishments in the United States, and Canada.

Included in this letter is a list of 119 Serbs or Serbian organizations obtained through a review of the DIPBOM file.

The names chosen were chosen on the basis that the individuals were followers of the same church faction as those persons identified as the conspirators in DIPBOM, and an attempt was made to include people who are active in Serbian emigre activities.

Offices receiving the list of persons thusfar compiled are requested to verify the addresses and note any change of address for people to whom the leaflet will be sent. Also, it is requested that the offices review their own files and suggest additions or deletions from the list. The Bureau has authorized sending 500 of the flyers and the list thusfar compiled does not contain enough names to fill out the 500 leaflet authorization. In all instances additional names are solicited and in the case of Cleveland, it is particularly requested that Cleveland provide a number of additional names, if there is no objection to this flyer being mailed from the Cleveland area.

Chicago is continuing in efforts to develop the list of recipients in Canada, and it is hoped that a number can be sent to the major leaders in Europe. Certain of the DIPBOM suspects have been left off of the list in order that there can be no connection with the Bureau.

Each office is requested to examine the list not only of the recipients of the territory of that office, but also in other territories and to submit recommendations for additions or deletions.

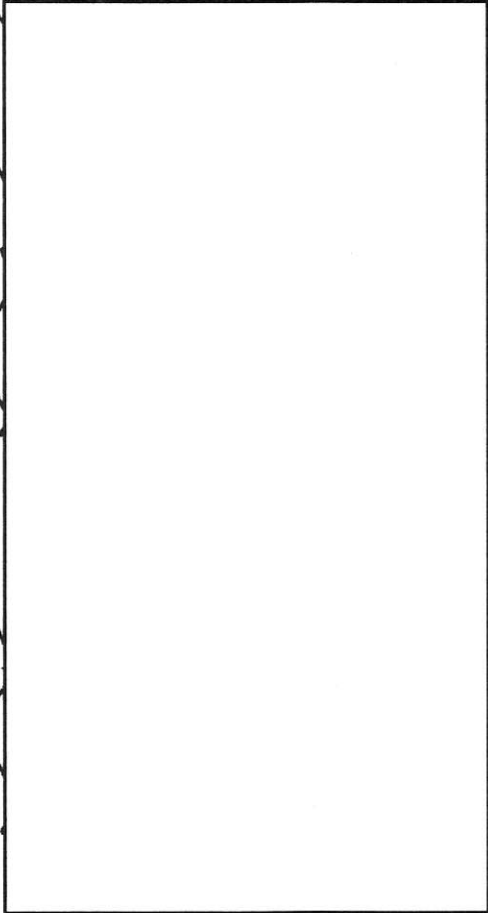

Particularly, local pro-Dionisija Church addresses, along with the names of the priests are requested, noting the intense involvement of these priests in political matters.

It is requested this project not be discussed with any person outside the Bureau in order that its total security can be maintained. The names taken have been transposed to their basic Serbian spellings, although in many instances the official spelling has been anglicized. This, again, is in the interest of security.

CG 105-8489

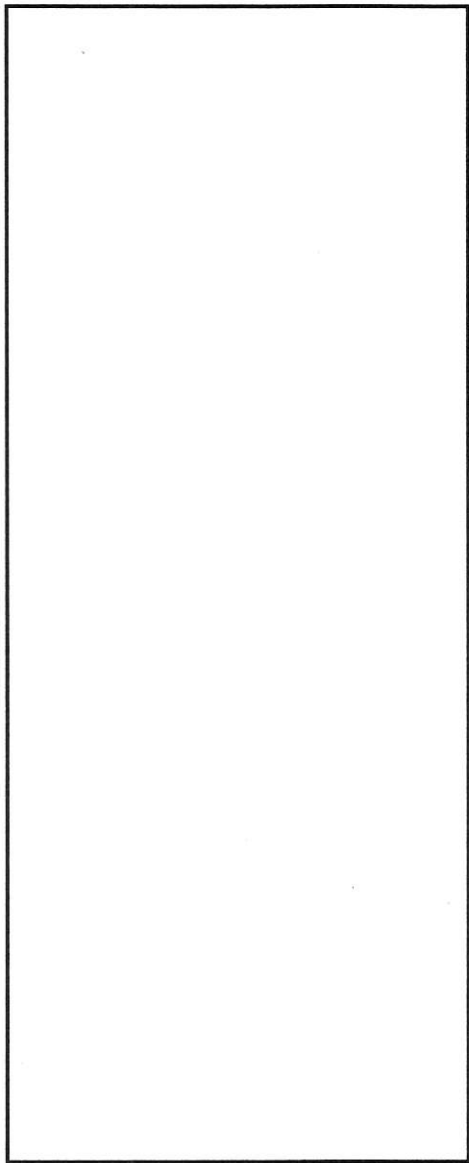

For the information of offices not previously informed, the purpose of this leaflet, which is to be published by the "Temporary Committee for the Protection of Serbian Nationalism," is to attempt to discredit two of the prime suspects of the DIPBOM case. These are MIOMIR RADOVANOVICH and DRAGISHA KASIKOVIC, both of Chicago. Both of these persons have capitalized on their alleged involvement to advance themselves in Serbian emigre circles and have boasted of the value of such direct action as bombings, etc.

ReBulet 6/23/69 and Chicago letter 6/4/69.

Enclosed for the New York Office are 208 stamped and addressed envelopes containing the flyers which were prepared at the Bureau, designed to discredit domestic Serbian extremists and to discourage future bombings of Yugoslav establishments.

The New York Office is requested to mail the enclosed envelopes immediately upon receipt. It is felt that the mailing of this letter at this date is especially timely since the Congress of the Serbian National Defense Council (SNDC) plans to hold its annual meeting at the SNDC Headquarters, in Chicago from June 30 through July 1, 1969.

The Bureau will be promptly advised as to any positive results of this counterintelligence operation.

The fact that the Consulate might be behind the letters has some of the immigrants worried since it indicates that the Consulate knows their identities and addresses. The source said, however, in the opinion of most Serbian leaders, the Consulate probably would not have the initiative for this type of action for fear of being exposed as the source of the letter.

The source, and most of the people he spoke with, concluded that the letter was the work of Dr. [redacted] who issued these letters because of the running feud between him and MIOMIR RADOVANOVIC. [redacted]

~~CONFIDENTIAL~~

The Yugoslav official did not dwell upon the source of the "hard information". In perusing this matter several possibilities come to mind ranging from an analysis of information available to the Yugoslavs from public and confidential sources to the possibility that the Yugoslavs have an informant actually in a position to furnish information on such plans. While the existence of such an individual remains pure speculation, Chicago feels the statements by the Yugoslav Counselor have opened an avenue that we may well be able to exploit through a counter-intelligence operation.

Chicago proposes, therefore, that selected participants and conspirators in the DIPBOM matter together with some of their close associates be interviewed by the Bureau and the impression be left without actually stating so, that we have information indicative of a penetration of their organization by Yugoslav Intelligence. Their cooperation and assistance would be solicited in identifying someone who might have furnished information to the Yugoslavs suggesting the possibility of "some type" of terrorism which is to take place (place unspecified), as the Bombings were considered by those who perpetrated them to have been successful. At this point, it can be stressed that the FBI and the U.S. Government in no way condone such actions, and this applies not only to the terrorism, but also to the cooperation of the informant with the Yugoslavs. It might be pointed out that the fact of the conceivable involvement of the conspirators might lend credibility to the information. The anticommunists feel persecuted already through the number of assassinations of anticommunist leaders throughout the world.

It is felt that through the above proposed plan, the following might be accomplished:

1. It would bring to the attention of the militant anticommunists the vigilance of the FBI in

~~CONFIDENTIAL~~

CG 105-23726

~~CONFIDENTIAL~~

preserving order, both from the right and the left and let them know this organization has not and will not cease to vigorously pursue terrorism, wherever it exists. Further, if such a plot exists, it will alert the anticommunists to the fact that we know of it and well might discourage further planning and/or involvement in such a plot.

2. It has been the consistent attempt of the FBI to splinter the faction of Serbian emigre society involved in terrorist plots. This "bringing to them" of the fact of the existence of an informant would undoubtedly bring them to mistrust members within their own groups. This would aid in further fragmenting this group (which has held quite solidly together in the society). In speaking with these conspirators and with other organization leaders in the past, it has been obvious they feel they are penetrated by Yugoslav Intelligence and approach paranoia in their reaction to this.

3. It is also possible the word will get back to [] and the Yugoslavs and give them second thoughts about whatever informant network they may have. It is not felt it would jeopardize Bureau sources as most of them have been involved for sometime and are trusted. Further, if the information came from an informant, it came from one the Yugoslavs could pinpoint, in all probability.

b6
b7C

The element of the reaction of the Yugoslavs is not particularly important because they have accused the U.S. Government's "Secret Service" (a ubiquitous term, not directed at any agency) as having been responsible, all along. So long as the Cointelpro objectives are fulfilled, an important function will be served. Further, the Yugoslav Government is accustomed to lies from immigrants and probably would attribute this to a figment of their imaginations, following the receipt of information and probable admonition concerning the plot.

~~CONFIDENTIAL~~

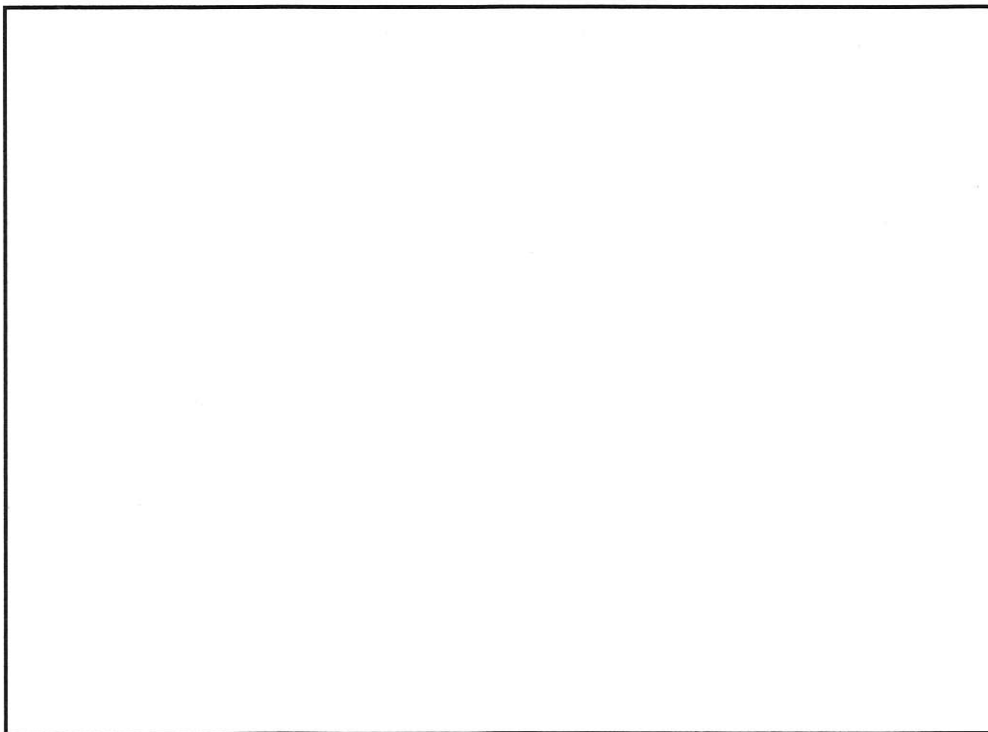

CG 105-28229

CG 105-23726

~~CONFIDENTIAL~~

4. Finally, it might create a renewal of faith in the U.S. Government which may have been lost during the DIPBOM investigation. The immigrants just might begin paying more serious attention to their own houses and through this may uncover Yugoslav Intelligence Agents.

Chicago would recommend the consideration of a partial list of anticommunists who would be alerted, as follows:

If approved, recipient offices could add persons for interview, as appropriate.

Bureau consideration is requested and Chicago strongly urges adoption of this or a similar program.

The counterintelligence proposal set out in referenced airtel is certainly indicative of the alertness on the part of Chicago to potential counterintelligence situations. Since Chicago's proposal involves several offices, the observations and recommendations of recipient offices, other than Chicago, should be promptly submitted prior to the Bureau making a judgment as to advantages and disadvantages of this counterintelligence operation. The Chicago proposal should be closely examined for all possible disadvantages as well as merits and results furnished the Bureau. Any changes which might make for a more advantageous situation should, of course, be also furnished the Bureau. You should bear in mind the need to insure the protection of our sources in this counterintelligence operation. Along this line, it is most important to determine whether any source has confirmed the information furnished State Department by [REDACTED] Yugoslav Embassy, Washington, D. C.

b6

Upon receipt of requested comments offices will be advised by the Bureau as to whether this proposal or a similar one should be carried out.

NOTE:

[] Yugoslav Embassy, advised State Department on 10/7/69 that the Embassy received "hard information" to the effect that the same conspirators involved in the 1967 bombings of Yugoslav establishments were now plotting to repeat such bombings. [] refused to furnish additional data. Appropriate offices were previously alerted to this information. CG now proposes we use this information in a counterintelligence operation. That office suggests that through interview of known participants in the 1967 bombings we leave the impression that the Bureau has information to the effect that their anti-Titoist organization has been penetrated by Yugoslav intelligence. The Bureau should have comments from logical offices prior to making decision in this matter.

Another reason for modifying the Chicago approach is that by merely stimulating a general aura of suspicion without directing it toward a specific individual, the FBI might not only fracture the terrorist groups in Serbian circles, but also the legitimate fraternal groups and also the Serbian Orthodox Church itself. Such results would not seem to be in the best interests of the Bureau. (u)

Re Chicago airtel to Director, 10/23/69, and Bureau letter
to New York, 11/3/69.

Milwaukee sources have not confirmed the info furnished to
the US State Department by [redacted] of the Yugoslav
Embassy (page 1, paragraph 2 of re Chicago airtel).

Without question, Chicago's proposed plans in this matter
have definite merit, and Milwaukee would concur with same.
Persons suggested for interview have been interviewed on
numerous occasions in the past so that recontact at this
time could not be construed as being unusual or questionable.

To further insure that the line of "questioning" as proposed
by Chicago comes to the attention of desired parties, considera-
tion could also be given to interview of select Yugoslav
sources, in addition to DIPBOM subjects and/or suspects.
To further "spread the word," these sources could be asked
to develop info, if possible, as to penetration of Yugoslav
anti-communist groups by Yugoslav intelligence. In the
case of the aforementioned subjects and/or suspects, of
course, the impression would be left with them that we
actually have info indicative of such penetration by Yugoslav
intelligence.

Milwaukee would agree to interview of [redacted] and [redacted]
[redacted] as suggested by Chicago.

ReBulet to NY 11/3/69 and CG airtel 10/23/69.

The Los Angeles Office has sources within the Serbian National Defense Council, The Royal Yugoslav Army Combatants Association, as well as within the pro-DIONISJE church faction, all of which are anti-TITO groups. No information has been developed to corroborate the information furnished by [redacted] of the Yugoslav Embassy to the State Department pertaining to plans for repeated bombing of Yugoslav establishments.

The possibility exists that the Yugoslav Government is aware that the U.S. Government dropped the charges against the Dipbom conspirators and consequently might feel that the FBI has lessened its investigative efforts against these conspirators. Consequently, in order to have the FBI continue pressure on their enemies (anti-Titoist groups) they have furnished this information for that stated purpose. The absence of information from sources relative to this information furnished by [redacted] might tend to confirm this theory.

b6

On the other hand, assuming that the Yugoslav Government does have factual information relative to a plot to again bomb Yugoslav establishments, the recommendations by the Chicago Office are worthy of consideration.

For the information of the Bureau, it is noted that there are currently no Yugoslav establishments in the Detroit Division, and contact with established Yugoslav sources here, reveals that among the Detroit Yugoslav community, the anti-communists are reported to be passive in nature. *7*

It is further noted that there are currently no known participants/conspirators in the DIPBOM matter residing in the Detroit Division, and it is therefore felt that there are currently no likely candidates for interview here. No Detroit residents are listed on page four of re Chicago airtel.

Detroit endorses the comments of Chicago, as set forth in re airtel and subscribes to the proposal; nevertheless, it is felt that at this time, it would not be applicable in the Detroit Division.

referenced Chicago airtel. Since the submission of the counterintelligence action proposed by Chicago, an article appeared on page 42 of the 11/21/69 issue of "Time" magazine which would lend credence to this plan. By this time, this article, entitled "WEST GERMANY - BALKAN VENDETTA", should be quite a topic of conversation within the emigre groups and subsequent contacts of the suggested individuals by the FBI should tend to increase their already existent apprehensions of penetration by sources reporting to the Yugoslavs.

WFO does not believe that the plan as suggested by Chicago will endanger any of our own sources. In addition to the plan proposed by Chicago, WFO suggests that [redacted] Yugoslav Embassy, Washington, D.C. (WDC), be contacted by WFO agents in an attempt to get him to elaborate on his "hard information" concerning a repeat of the bombings. With prior Bureau authority, an appointment with [redacted] could be set up through [redacted] [redacted] USDS. In such an interview, WFO would also attempt to solicit the names of the persons whom [redacted] suspects of plotting repeat bombings, and compare these with our list of suspects in the 1967 bombings. WFO feels that whether or not any useful information is gained through such an interview, it would reiterate to the Yugoslavs that the U.S. Government in no way condones such actions and is in fact striving to prevent a reoccurrence of them. WFO further feels that such an interview would in no way adversely affect the operation suggested by Chicago.

sible type weapons, including a variety of poison gas that West German authorities cannot yet identify. The fighters are Yugoslavs—exiles opposed to the regime of Josip Broz Tito on one side, agents of the Yugoslav secret service, the U.D.B.A., on the other.

Not that the 23,000 exiles form a united front—far from it. In fact, they are divided mainly into three major political and ethnic groups: the royalist Zbor movement; the Chetniks of the late Draža Mihailović, Tito's chief rival for power during World War II; and the Croats, including many former members of the Ustachi movement, which collaborated with the Nazis during the war. Since the three groups despise each other nearly as much as they do Tito, a good part of the murder and mayhem among Yugoslavs in West Germany

DPA—BILD

'CROAT UNDER ARREST AFTER BERLIN ATTACK
Pleading to take the war elsewhere.'

undoubtedly involves exile rivalries.

Recently, the exiles concluded an uneasy alliance to take advantage of a new factor: some 226,000 Yugoslav "guest workers" who are admitted to labor-short West Germany for two- or three-year stints. Over glasses of slivovitz in grimy bars, during friendly talk in homes, and in full-fledged secret political gatherings, Yugoslav exiles try to spread discontent among their visiting countrymen. Their hope, of course, is that the workers will form an anti-Tito underground when they return home.

However unlikely that prospect, the activity of the exiles has worried Tito. In retaliation, he has begun slipping paid informants and assassins across the border with groups of ordinary workers who arrive daily in major West German cities. Western experts estimate that some 1,000 U.D.B.A. informants are

keeping an eye on Yugoslav workers, and that about 100 others are in West Germany to handle more sensitive assignments. Whatever their number, the agents work efficiently. In Munich alone during the past year, there have been six unsolved Yugoslav murders and several mysterious disappearances.

The exiles retaliate by machine-pistoling and bombing Yugoslav offices in West Germany. Employees of the Yugoslav embassy in Bonn work behind fortress-like defenses installed seven years ago, when exile attackers stormed the building and killed a doorman. In the past two years, exiles have hit Yugoslav offices in five major cities, including Berlin, where this summer a 27-year-old Croat riddled the consulate with bullets in an unsuccessful attempt to kill the chief of mission.

Diplomatic Problem. The émigré leader who claims that he is now No. 1 on the U.D.B.A. murder list is Branimir ("Branco") Jelic, 62, who was a founder of the pro-Nazi Ustachi movement. It is not a claim that Jelic—or anyone else—makes idly. The last person who said his name was at the top of the list was Ante Vukic, 48-year-old president of the League of United Croats in Dortmund. He and his wife are now recovering from partial paralysis of their arms and legs, suffered when they inhaled a poison gas that had been sprayed on the interior of their car. Jelic, publisher of an émigré newspaper, has placed four walkie-talkie-equipped bodyguards outside his office and asked protection from the West Berlin police.

The Balkan vendetta being waged in West Germany has caused some setbacks in the newly cordial relations between Bonn and Belgrade. Yugoslav officials complain that West German courts have refused to hand over the exiles responsible for the bombings. West German officials reply that they cannot influence the decisions of the country's independent courts, and somewhat helplessly plead with the Yugoslavs to take their war somewhere else.

For almost 25 years, West Germany has served as the front line of the cold war between the two superpowers. Re Chicago airtel to Bureau dated 10/23/69; Bureau letter to New York dated 11/3/69.

Review of the suggestions of the Chicago Office in this matter has been made by this office. It is believed contact with persons named in referenced airtel will start the Serbian community thinking at least about the sources in their midst.

The only suggestion this office would like to advance is that possibly some connection could be inserted in the interviews between these proposed interviews and the flier previously distributed by Chicago regarding MIOMIR RADOVANOVICH and DRAGISHA KASIKOVIC under the sponsorship of the "Temporary Committee for the Protection of Serbian Nationalism." Not having seen a copy of the flier, this office cannot comment on how the interviews could involve information from the fliers, nor can this office comment on whether this is a valid consideration in these interviews.

The above submitted for consideration.

Re Chicago airtel, 10/23/69; Bureau letter,

letter, 11/18/69.

In the past, New York suggested a modification
of the proposed counterintelligence operation, included
in the referenced Chicago airtel of October 23. This
modification would be to make some reference to
of New York City. The reference would be
a racial characteristic or a place of birth or some
other indication. While all offices have not expressed
their opinions of this proposed program, Chicago
feels it may be well at this time to comment on the
New York suggested modification. The Newark Office
has express justifiable concern over the security of
the informants in the Newark - New York areas. This
is certainly a worthwhile point, however, there are
informants in other parts of the country. It is not
felt that any informant would be jeopardized if the

program was directed specifically against one person, as New York has suggested. Chicago concurs with the New York suggestion of directing this program against [redacted]. Based on information submitted by New York, regarding the attempt to interview [redacted] Chicago feels this is probably the leak the Yugoslavs used regarding the allegation that the Serbian community was about to engage in some act of terrorism. It is apparent his anticommunist tendencies do not go deeply enough to permit him to serve the country that has taken him in. Concerning the various allegations suggested by New York, Chicago will not comment, except to say that none of these alternatives is particularly worthwhile or admirable. [redacted] is obviously a dangerous man and Chicago feels he is a worthwhile target, against which to direct this program. This would necessitate changing the structure of the list of proposed persons. It might be advisable to reduce the number contacted in the Chicago area, although not too substantially. Also, it would behoove us to expand the list to be contacted in the New York - Newark areas. Chicago would suggest contacting approximately five or six in the Chicago area and a more substantial number in the metropolitan New York area.

New York and Newark's suggestions regarding the type of information to be used in the program, possible persons to be contacted in the New York metropolitan area and any other comments are solicited.

Subsequent to Chicago's counterintelligence proposal, articles indicating that recent Yugoslav emigre assassinations may be traced to the Yugoslav Government have appeared in "Time" magazine and the Washington, D.C., "Sunday Star." As WFO pointed out in its 12/16/69 letter, such articles will certainly tend to increase the anxiety in Yugoslav emigre groups as well as the apprehensions of penetration of such groups by Yugoslav Government. While this could make for a most opportune time to initiate Chicago's counterintelligence proposal, recipient offices should bear in mind that a Yugoslav interviewee, already in an apprehensive state of mind, could decide to take matters into his own hands. Therefore, Newark and New York, in answering Chicago's request for additional data, should submit a carefully thought out plan of approach. This counterintelligence program should be directed against more than one person and interviews should be carefully planned so as not to definitely pinpoint persons supposedly informing on emigres to the Yugoslav Government.

Concerning WFO's suggestion that [REDACTED] Yugoslav Embassy, be contacted to have him elaborate on his information concerning a possible repeat of the January, 1967, bombings of Yugoslav establishments, no action should be taken. Our initiating such a contact with [REDACTED] could be misinterpreted by the Yugoslavs to the effect that the FBI is protecting their personnel and establishments. Such could be misused by the Yugoslav Government in any future incident at one of their U.S. establishments.

b6

Upon receipt of requested information from Newark and New York, Chicago should submit a definite proposal to carry out this counterintelligence operation.

NOTE:

[redacted] Yugoslav Embassy, advised State Department in October, 1969, that the Embassy received information that the same conspirators involved in the 1967 bombings of Yugoslav establishments were now plotting to repeat such bombings. [redacted] refused to furnish additional data. All appropriate offices were alerted. Chicago recently proposed that we use this information in a counterintelligence operation. Chicago suggested that through interviews of known participants in the 1967 bombings we leave the impression that the Bureau has information to the effect that their anti-Titoist organizations have been penetrated by Yugoslav intelligence. Comments were solicited from logical offices. Both Newark and New York now propose that the operation be targeted against a particular person to eliminate possibility of endangering any informants. Chicago has requested additional comments of Newark and New York. The recent articles in "Time" and the "Sunday Star" pertained to murders of Yugoslav emigres in Europe, most of whom were anti-Titoists.

Re Bureau letter, dated 1/8/70.

The following is a re-evaluation of the proposal submitted by Newark in connection with above captioned matter.

It is believed the planting of information with one or more persons in the Yugoslav Colony in the Paterson, N. J. area for counterintelligence results could adversely effect established confidential sources of information.

It is believed that a Yugoslav interviewee in the Paterson area would immediately proceed to broadcast the information. The members in the Yugoslav Colony including the members of St. Sava Serbian Church in NYC, would be looking to these in the colony, who have had contact with the Yugoslav Consulate and for members of the Yugoslav establishment in NYC. This could possibly endanger the status of confidential sources in the Yugoslav field.

The apprehensive state of mind of some individuals in the Yugoslav Colony may possibly jeopardize the welfare of some sources.

There is therefore, the possibility of misuse of such a counterintelligence proposal and accordingly if such a program is to be instituted, it should only be directed toward known personalities in the Yugoslav field, if all carried out.

Re Bureau letter, 1/8/70 and New York letter, 2/3/70.

The Yugoslav emigre community in the Chicago area is at this time upset over the recent assassinations of Yugoslav emigre political leaders. Chicago has recently been involved in determining the extent of a Croatian organization believed to be inclined toward militant direct action. This is the Croatian Resistance Movement (OTPOR). It would appear that if a provocation occurred such as the assassination of an emigre leader in the United States, there might be retaliatory action taken. It is believed that this presents the opportunity for a program designed to make the emigre community take a look at its own organizations. Hence, Chicago suggests contacting leaders within the various organizations, including Croatian organizations. It is felt this can be done without unduly alarming them and with creating an atmosphere of introspection and self-examination as to possible penetration of their organizations by Yugoslav Intelligence.

It is felt four areas would be beneficial. First, it would point out the interest of the United States Government in preserving order in the United States. Second, through contact with various leaders of organizations within the emigre community, source coverage will be expanded. A third point is that this could well result in fragmentation of terrorist organizations or organizations inclined to terrorism. Fourth, if the existence of this program gets back to the Yugoslavs, this might well result in curtailment of intelligence activities on their part.

Chicago suggests the leaders of various organizations be approached with the following plea. As a result of the continuing investigation within the Yugoslav field, and since there have been a number of assassinations of prominent political leaders within the emigre community in Europe, the possibility exists that efforts may have been made to penetrate anti-communist organizations in order to obtain information as to the activities of these organizations, to disrupt these activities and/or the possibility of direct action against anti-communist groups. The FBI would like to solicit their cooperation and appraisals of their organizations in an effort to ferret out possible Yugoslav plants within the organizations.

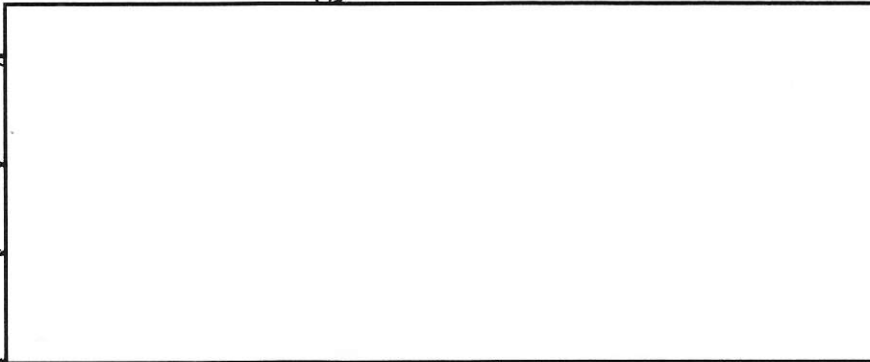

Chicago is unable to determine which organizations should be contacted in the various field offices territories. In the Chicago Division it is suggested the following leaders be contacted:

ReCGlet 2/25/70, one copy of which was furnished each recipient office, suggesting that certain leaders of various anticommunist groups in the Yugoslav community be approached.

Chicago's suggestion is well taken and has considerable merit. As recipient offices are aware, Yugoslav Intelligence Service has long had a very close interest in Yugoslav emigre groups. The penetration of such groups is certainly a prime target of Yugoslav intelligence. Information furnished by sources in the Yugoslav communities indicates a growing concern, particularly among Croatian leaders, over the assassinations in Europe of leaders among anti-Titoists.

Recipient offices should furnish Bureau and Chicago names of persons who are considered the most logical targets for such a contact along with brief identifying data and Bufile numbers when known.

Prior to initiating contacts, Chicago should furnish Bureau and recipient offices additional details as to the exact basis of the approach to be used. Chicago should bear in mind that the interview of an anti-Titoist should not leave the impression that the Bureau is agreeing with those enigres who believe Yugoslav Intelligence Service is responsible for the assassinations. based on the Bureau's interest in obtaining information concerning the interest of Yugoslav intelligence in Yugoslav immigrants and Yugoslav emigre organizations. The Bureau's responsibilities in the internal security field should be explained to the interviewee. If receptive, the interviewee's attention should be directed to public source information, including articles appearing in Croatian and Serbian language newspapers, indicating the assassinations can be traced to Yugoslavia. Chicago is aware of such public source information and should identify same in its response to the Bureau.

Upon receipt of the list of persons to be contacted by recipient offices and Chicago's basis for approach, the Bureau will advise whether the persons recommended should be contacted and, in addition, whether Chicago's recommended approach is acceptable.

NOTE:

The numerous assassinations of anti-Titoist leaders which have occurred in the past two years are of great concern to the Yugoslav communities in this country. There have been numerous rumors among Yugoslav emigres that retaliation may be taken against Yugoslav establishments in the U.S., particularly if a similar assassination takes place in this country. Contact with leaders of these Yugoslav groups could, as suggested by Chicago, be most beneficial particularly in developing sources and possibly disrupting any potential plans for retaliatory measures against establishments and personnel.

ReBulet dated 3/16/70, directing the Chicago Office to furnish additional details as to the exact basis of the approach to be used in this counterintelligence proposal.

The approach to be used is being formulated for submission to the Bureau. Proposals for individuals to be contacted continue to be received by Chicago. Chicago, through its contact in the emigre field, is continuing to determine the mood of the various factions in order to better enable this Office to submit a competent proposal. When the proposed persons to be contacted have all been compiled, Chicago will submit its proposal.

Re Bureau letter 3/16/70.

A study of the Yugoslav organizations in the San Francisco Division revealed that these organizations, for the most part, are anti-Tito in varying degrees and some, particularly Croatian organizations, favor a free and independent state of Croatia.

Although these organizations and their leaders are anti-Tito and in the past have demonstrated passively against Yugoslav Consulate and its staff, there has been no evidence developed that they advocate and or plan violent action of any type against Yugoslav establishment, San Francisco, California.

On occasions, in the past, however, there have been incidents where individuals during Croatian social functions have challenged the presence of diplomats from the Yugoslav Consulate at such functions.

These individuals were rank and file members of a Croatian group composed of pro-Ustashi sympathizers. This group, according to one source, is the only militant-type group in the Croatian colony. In order to wield political influence and respect, they have formed approximately 20 Croatian organizations mainly in name only and the membership of each organization was made up of the members of the parent group.

In addition, they have formed the Croatian-American Congress of California (CACC) which is a superficial organization designed to give the appearance of a powerful political force within the Croatian Colony. According to this source, they have used the CACC to influence the California State Assembly to designate, Independent Croatia Day in California, April 10, which is identified with the Ustashi government of Croatia during World War II, a puppet government installed by the fascist Italian-German forces.

A confidential source who is on the [redacted] has advised that the CACC was formed to unite American Croats for the preservation and promotion of Croatian customs, music and religion, and to give moral support to the Croats living under Yugoslav communist yoke. According to this source, CACC advocates passive and democratic opposition to the Yugoslav communist government re persecution of the Croatian people. The CACC has no plan for violent demonstrations of any type against the establishment or personnel of the Yugoslav Consulate, San Francisco, California.

Re Bureau letter dated 3/16/70, captioned
COUNTERINTELLIGENCE AND SPECIAL OPERATIONS.

The referenced communication directed the Chicago Office to specifically describe the approach to be used in the Counterintelligence Program involving the interview of various leaders of anti-communist Yugoslav organizations.

Since the inception of this proposal, there has been a change in the situation among anti-communist Yugoslavs. There is presently an almost paranoiac fear among anti-communist leaders that they may be the subjects of assassination attempts, to be carried out by the Agents of the Yugoslav Government. Following recent contacts with certain of these leaders, sources have reported that the versions being spread by the leaders differ almost entirely from what might have happened. At his request, MIOMIR RADOVANOVICH, the anti-communist editor of the Serbian language newspaper "Sloboda" (Liberty), was interviewed.

(C) The interviewing Agents were extremely careful not to make any mention of the possibility that RADOVANOVICH might be in danger; however, following the meeting, [redacted] reported that RADOVANOVICH had claimed he was warned by the FBI. The allegation was made that the FBI told him his life was in jeopardy. RADOVANOVICH has a long history of fabrication to suit his current whim, however, this is not an isolated incident.

On May 18, 1970 [redacted] advised he heard from a pro-patriarch member of the Serbian Orthodox Church that the FBI in Chicago had warned one of the leaders of the Ljotic Faction that there were five assassins in the U.S. who had been sent by the Yugoslav Government. This never happened. Further, information concerning another allegation was received by the Indianapolis Office from the brother of [redacted] that an FBI Agent from Washington, D.C., had warned [redacted] concerning the alleged threat against the lives of Yugoslav anti-communists.

With these instances having been reported, Chicago feels that regretfully this is not the time to implement this program. Recipient offices are requested to keep these instances in mind and to continue to be extremely circumspect in contacts with the leaders of the various emigre organizations so that there can be no sound instance of an allegation that the FBI may be warning immigrants of an alleged threat to their personal safety by the Yugoslav Government. Chicago will continue to follow the mood within the emigre community and if appropriate, this program will be resubmitted at a later time.

(U) It is believed the animosity existing between the [redacted] faction and the Pro-Patriarch faction has been greatly heightened by the circumstances surrounding the burial of King PETER, II. This burial took place at Libertyville, Ill., 11/14/70, at the St. Sava Serbian Orthodox Monastery, which is presently under the control of the [redacted] faction. Should the Pro-Patriarch faction select and coronate a successor to King PETER, the split within the SOC may become permanent and divide the Serbian people both along religious lines and with regard to their own future king. that the Pro-Patriarch faction will make some attempt to thwart the [redacted] group in their plans to bury King PETER. (S)u

b6
b7C

Chicago believes that a more important crisis may be developing at this time, which crisis may irrevocably split the Serbian community in the United States and Canada. This animosity may develop over the selection of a successor for King PETER and over the means by which this successor will be crowned King of Yugoslavia. Both factions in the Serbian Orthodox Church will certainly vie for the honor of crowning this successor, and it is probable that the losing religious faction in this dispute will not recognize the successor as the lawful King of Yugoslavia. [The Bureau has previously received information, from a defector source, indicating that the present religious dispute within the Serbian Orthodox Church was promoted and successfully implemented by the Yugoslav State Security Police (UDBa). A further division between these two groups will certainly be for the benefit of the UDBa and it would not be unreasonable to expect the UDBa to take advantage of this potential dispute over choosing a successor for its own benefit.] (X)(u)

The enclosed flyer calls upon Serbian leaders in the United States and Canada to take whatever action necessary to insure that the present religious dispute does not wreck the Serbian monarchy. This monarchy does serve as a rallying point for Serbian immigrants throughout the free world, which function the Serbian Orthodox Church in the United States and Canada is no longer able to fulfill. It is Chicago's belief that it is in the national interest that the Serbian people not be further divided, and it is for this

~~SECRET~~

~~SECRET~~

~~SECRET~~

CG 105-28229

reason that the enclosed flyer has been prepared. It may also serve to counteract any Yugoslav operation aimed at destroying the monarchy, which the UDBa may implement through the Pro-Patriarch faction in the Serbian Orthodox Church. (S) u

If the enclosed flyer is to be successful in its purpose, it must be expeditiously translated, returned to Chicago, and then mailed. The mailing point for the enclosed flyer should be Chicago because of the large Serbian community present in this area and because of the presence of the King's remains in this area. Other divisions having large Serbian communities are not being asked to comment on the enclosed flyer as it does not appear that sources of these other divisions will be compromised by its publication. Chicago will, if the Bureau approves, mail the enclosed flyer to approximately 500 leading Serbian individuals in the United States and Canada. Chicago has previously mailed another flyer captioned "Temporary Committee For The Protection of Serbian Nationalism" and the recipients of that earlier flyer will be identical with the recipients of the proposed enclosed flyer. (S) u

Bureau authority is requested for the proposal outlined above. Chicago also requests authorization to spend up to \$75 to implement this project. It is also requested that the Bureau translate the enclosed flyer into the Serbian language and to furnish Chicago with 500 copies of the translation. Chicago will prepare envelopes, not bearing a return address, and mail them to the individuals described above. (S) u

TEMPORARY COMMITTEE FOR THE
PROTECTION OF SERBIAN NATIONALISM

Serbia

Brother Serbs and Serbian Women,

Our King is dead, and he was our King regardless of our allegiance in the religious dispute that has torn us apart for these many years. We have been divided and impotent because of this struggle, and no one has profited from our division except those who bear ill will for a free Serbia. Our struggle among ourselves has led to an inability to bury our late King in peace and in unity. We carry on this mutual hatred even at this time of grief, and in so doing we threaten the existence of the Serbian Monarchy, which we all hold so dear, and for which so many Serbs have died in battle.

All Serbs know that the most divisive force which has been used to dampen our anticommunist attitudes has been the split within the Serbian Orthodox Church. Now, it would seem that the Communists are again to succeed in further dividing us as a result of the furor caused by the death of our beloved King. This must not happen! We must not fall victims to the bloody Communists again. We must maintain our staunch beliefs. We must unify, not be further fragmented by the insidious machinations, used so successfully in the past. We therefore propose to the responsible lay people of the Church that they resist any attempt to divide further the brothers and sisters of the Orthodox faith.

To this end, we propose that the successor to our beloved King be jointly crowned by ecclesiastical authorities of both factions. If this is not possible, then let us not take any part in this coronation which would possibly further separate brother from brother. The King must be the King of all. We must not let our ranks be divided. We must look at our situation with open eyes and see the real culprit - Communism. We must not let ourselves be led any longer by extremists, no matter what they believe.

A similar flyer, designed to discredit those Yugoslavs who capitalized on bombings to build their reputations in the Serbian communities, was mailed in February, 1969, from this same fictitious "committee." There was a receptive attitude concerning the flyer among Yugoslavs and results were considered to be very good.

Braco Srbi i Sestre Srpkinje,

Nas je Kralj preminuo. Bio je nas Kralj bez obzira kojoj smo strani pripadali u verskim trzavicama koje su nas pocepale vec mnogo godina. Bili smo podeljeni i nemocni radi ovih trzavica i samo oni koji zlo zele Srbiji imali su koristi zbog nase podeljenosti. Nase medjusobne borbe su nas sprecile da pokopamo naseg pokojnog Kralja u miru i slozi. Zadojeni smo ovom medjusobnom mrznom cak i u ovo vreme zalosti sto dovodi u opasnost i samo postojanje Monarhije koja nam je svima mila i za koju su toliki Srbi poginuli.

Svi Srbi znaju da je razorna snaga koja je upotrebljena da otupi nase antikomunisticke osecaje bila podela Srpske Pravošlavne Crkve. Sada, izgleda da ce komunisti ponovo uspeti da nas i dublje podele usled bure koju je prouzrokovala smrt naseg voljenog Kralja. To ne sme da se desi! Ne smemo ponovo pasti kao zrtve krvavih komunista. Moramo da cvrsto odrazimo nasu veru. Moramo se ujediniti i izbeci dublje cepanje putem podlih makinacija koje su uspele da nas podele u proslosti. Stoga, mi predlazemo nasem odgovornom verskom narodu da odbije svaki pokusaj daljeg cepanja pravoslavne brace i sestara.

U tom cilju, predlazemo da Naslednik nasega omiljenog Kralja bude krunisan od strane crkvenih valsti obeju strana. Ako to pak nije moguće, ne ucestvujmo u ovom krunisanju koje ce verovatno odaljiti jos vise brata od brata. Kralj mora biti Kralj sviju nas. Ne dozvolimo da se nasi redovi podele. Otvorimo oci u posmatranju naseg stanja i ugledajmo pravog krivca, to jest komunizam. Ne dajmo se dalje zavoditi od strane ekstremista, ma sta oni verovali.

Nek nas smrt naseg Kralja ujedini cvrscce nego li nas je njegov zivot ujedinjavao. Nek nam Gospod da uvidjavnosti da odsada odaberemo pravi put.

BIG DIPLOMATIC SCANDAL IN CHICAGO

(The material for this article is based on photocopies taken out of the American press, on interviews of various persons who were in a position to explain the whole scandal and on data which we received, through the mail, from unknown persons -- Remark of "Sloboda")

Last week an unbelievable diplomatic scandal took place in Chicago. Well-informed observers say that such a thing is unprecedented in the history of America.

As everybody knows, the Yugoslav communists celebrated the birthday of dictator Tito in gala manner on May 25, spending, as usual, millions grabbed from workers.

A group of still unknown people, decided to "celebrate" the birthday in its own manner.

Luxurious Invitations

Luxurious invitations were sent to all diplomatic missions, sixty of them, to leading

functionaries of Chicago and to hundreds of prominent citizens of the City and of Illinois.

All were invited to the solemn banquet in the Gold Coast Room of the Drake Hotel on May 27 at 8:00 p.m.

It seems that, at the same time, all the leading newspapers of Chicago received a communication stating, among other things, that "during the First World War, Josip Broz Tito fought as noncommissioned officer in the Austrian Army."

The photocopy of an article of the "Chicago Tribune" appeared on May 25, specifying that the main speaker at the dinner will be Linus Pauling, the Nobel Prize winner (see page 1, Column 2).

The photocopy of the invitation in question also appears, in English, on page 1, Column 2.

The photocopy of the article which appeared, on May 25, "Kup's Column" of the "Chicago Sun-Times" can be seen on page 1, column 3.

Panic in Consulate

Because of all this publicity, the Yugoslav Consulate was in a state of panic.

Various consulates were called by phone. They had received the invitations. Invitations had also been received by various eminent persons to whom they were addressed.

The "comrade" Consul was in a state of despair.

He immediately asked for instructions to the

Yugoslav Embassy in Washington and was told to address explanations to all the diplomatic missions in Chicago and to apologize because of the scandal.

In addition, hundreds of letters were sent to the invited persons.

The Consul asked that, in the future, invitations of the Consulate be checked.

Attempt to Save what Could Be Saved

Consul Samac informed the Drake Hotel about the hoax and asked the Chicago Police for protection from the magic "hostile elements."

At the same time, after hysterical discussions with the Chicago newspapers, a formula was found to deny the communications related to the banquet which were printed by the "Chicago Tribune" and the "Chicago Sun-Times."

The article of the "Chicago Tribune" published on May 27, appears on page 4, column 1.

The article of the "Chicago Sun-Times" stressing that the Consul is trying to learn the identity of the hoaxer who used his name, was published on May 28 and its photocopy appears on page 4, column 1.

Events in the Drake Hotel

In spite of the letters addressed to all the Consulates in Chicago and despite the public denials

published in the press of the City, many of the invited people came to the gala banquet in the Drake Hotel.

A correspondent of "Sloboda" went over there and asked where the banquet would take place. The manager was very suspicious; however, when our correspondent identified himself, he stressed that there would be no banquet and that threatening phone calls addressed to the Yugoslav Consulate were continuously received.

About 8:00 p.m. the guests started arriving. There were about eighty couples in all. After the explanations, they were infuriated and left the Hotel.

The Scandal Widens

After the catastrophe in the Drake Hotel, the Consulate thought that everything was over.

However, the unknown persons who had set up this affair thought otherwise. They sent a letter of protest, on behalf of Consul Samec, to all the newspapers in Chicago.

The "Chicago Sun-Times" swallowed the pill again and published the protest.

The photocopy of the protest which was published on May 31, 1972, by the "Chicago Sun-Times," appears on page 4, column 2, emphasizing that the "occurrence of this type of provocations may seriously damage the relations between Yugoslavia and the United States...."

and [redacted] in Chicago, was flabbergasted.

b6
b7C

Diplomats declare that, from now on, they will no longer invite Consul Samec to their receptions and that they will not respond to his invitations.

The Denial of the Yugoslav Consulate

When the Consul saw his alleged protest, he had a nervous breakdown. According to some reports, he threw ash trays all over the office, cursing and cussing in the most vulgar manner.

After drinking a glass of cold water, he calmed down a bit and phoned, in very bad English, to various newspapers conjuring them to stop publishing matters written by "hostile elements."

The "Chicago Daily News" published an article under the title "Yugoslav dinner hoax 'explained'" on May 31. The photocopy of this article appears on page 4, column 3.

The "Chicago Sun-Times" published an article entitled "Yugoslav Consulate bares hoax atop hoax" on June 1.

The general opinion in Chicago is that the fiasco of the Yugoslav Consulate was a really terrific one.

In diplomatic circles, it is believed that Consul Samec is completely discredited and that he will have to resign.

Read in the next issue of "Sloboda" about the continuation of the scandal:

The explanation of the "Revolutionary Front" (Revolucionarni Front") which organized the action.

The background of the scandal and new data. All will be published exclusively in "Sloboda." Interviews with persons who went to the Drake Hotel will also appear.

Read the next sensational issue of "Sloboda."

ReBuairtel to Albany and all offices 12/23/74,
captioned "Communist Party, USA; Counterintelligence Program;
IS - C," which advised that documents relating to that program
had become subject to a Freedom of Information Act request,
and instructed recipients to classify their copies of
Cointelpro documents classified at FBIHQ. In addition,
recipients were to review their Cointelpro files for any
additional classifiable documents located in those files,
classify them, and notify other offices having copies to
likewise classify their copies. W

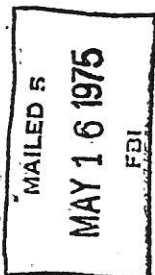

During the course of this review, as well as
review concerning other Cointelpros, it has been ascertained
that captioned program could be considered a counterintelli-
gence program and thus also subject to disclosure under the
Freedom of Information Act.

Re: Counterintelligence
Yugoslav Matters
105-190209

Therefore, there is enclosed for each recipient a three-page work paper listing documents appearing in captioned file at FBIHQ which have been classified, and which are located in various field office files. Each recipient is instructed as follows:

Carefully review the work paper to insure that copies of documents classified at FBIHQ, when they are located in a field office, are marked with identical classification data (level, category, classification officer number and date). In all cases, date of declassification is "indefinite." In classifying a document on a retroactive basis, bear in mind that it is necessary to include the date the document was classified at FBIHQ, and the date the classification is affixed to field copies.

If you have a field office file concerning captioned program, review it to insure all other classifiable documents contained therein are appropriately classified. This will include both intra-office documents as well as documents furnished to other offices. In instances where other offices have been furnished copies of a document, it is the responsibility of the originating office to furnish all recipients of those copies (including FBIHQ, if FBIHQ was furnished a copy) sufficient information so they may classify their copies in the same manner as the originator. If your records indicate an office not a recipient of this airtel has received copies of any of these documents, furnish a copy of this airtel to that office along with your notification to classify its copies.

It will be incumbent upon each recipient to insure that all copies of documents classified in its program file are also appropriately classified if they appear in any of its other office files. Review indices to insure that any other classifiable material in your office concerning captioned program is classified.

Re: Counterintelligence
Yugoslav Matters
105-190209

This project must be assigned only to personnel who are completely familiar with classification rules, and you should refer to the Manual of Rules and Regulations, Part II, Section 4, pages 53 through 57b, for instructions relating to classification procedures.

All inquiries concerning this matter are to be directed to FBIHQ, attention: INTD, IS-3. Questions concerning specific documents listed on work paper must be accompanied by a complete description of the document as well as the line and page number of the work paper on which it appears.

It is expected that you will utilize your own judgment in resolving any problems concerning justification for classification of documents, but if any questions do arise which you feel should be brought to the attention of FBIHQ, these too should be directed to INTD, IS-3.

This project must be handled on an expeditious basis and be completed by 6/20/75. Insure sufficient personnel are assigned to meet this deadline. On or before 6/20/75, FBIHQ must be advised by each recipient of the completion of this project.

NOTE:

Captioned program was implemented in January, 1969, with the objectives of discrediting those Serbian emigres who sought to capitalize on bombings of Yugoslav diplomatic establishments in the United States and Canada in order to enhance their reputations within the Serbian community as a result of their actions; encourage Serbian emigres to respect and adhere to the laws of the United States and to discourage future bombings of Yugoslav diplomatic establishments; to prevent Yugoslav communists from successfully dividing the Serbian emigre community. Very little activity was conducted under this program and the last FBIHQ authorization for counterintelligence action was dated November 18, 1970.

Re: Counterintelligence
Yugoslav Matters

NOTE CONTINUED:

We have advised the Department that we would classify internal documents meeting the criteria of E. O. 11652 at such time as they become the object of a request under FOIA, or other efforts are made to effect their disclosure.

A broad request has been made by the media for documents relating to our Cointelpros, and although captioned program was not specifically mentioned in this request, it is felt it would be encompassed by a request for Cointelpro material; therefore, classifiable documents contained in FBIHQ files concerning this program have been classified, and copies of these documents appearing in other FBIHQ files will also be classified.

By letter dated 4/21/75 to the Attorney General, we advised the Department of the existence of this program, along with the four other recently discovered Cointelpros (Hookwink, Cuban, Puerto Rican Nationalist and Bocov), and indicated we were presently classifying, as appropriate, material appearing in our files pertaining to these programs.
